

Custom Map Orders

The Mason County GIS Department can create custom maps to meet your requirements. Custom cartographic services are \$72.50/hr labor, with a minimum charge of 1/2 hour (\$36.25). Custom map pricing will vary with complexity and size of map, and will include: printing costs, sales tax¹, and shipping and handling (if applicable). Printed copies of the map will be charged at the rate shown on the “Existing Map Orders” sheet. Custom maps can be printed at any size up to a maximum width of 42” wide. Maps wider than 42” can be produced but the customer will be responsible for printing.

The completion time of Custom Map Orders is dependent on staff workload. Custom Maps produced at a size not shown on the “Existing Map Orders” sheet will be billed to the closest size from the “Existing Map Orders” sheet or at the discretion of the GIS Staff.

¹ Sales Tax is charged on the total cost including: printing, labor and materials
