#### VII

Mason County must rely heavily upon resources outside our immediate jurisdiction due to limited size and services. Placement services, foster care and group home care are arranged in conjunction with the Department of Social and Health Services, Shelton Office. Drug and alcohol residential treatment centers are referred through parental placement. Many federal programs are utilized such as military and Job Corps enlistment. Employment is secured through Neighborhood Youth Corps, CETA, and CAP programs, as well as the Subsidy supported employment program. Diagnostic and treatment programs are contracted as needed with the Mason-Thurston Mental Health Center, Bremerton Mental Health. Parents are required to pay as they are able. This is also the case with Pediatric services and other medical and dental needs. Mason County has contracted for community diagnostic services as needed with Community Resource Center in Bremerton.

Education and vocational programs are coordinated with the Shelton School Psychologist and referred to the School Resource Facility or arrangements can be made through the Olympic College Extension Program, OTCC, or tutoring services. The recreation and group activities programs are coordinated with various community agencies, for equipment and funds. Personnel are volunteers from the Parks Services, local wildlife management agents and active citizens. The Special Supervision Program has been charged only for food in these areas.

#### VIII

The plan for the Mason County Special Supervision Program for the Calendar Year 1981, as defined herein has transferred to the Alternative Subsidy Program, which will be continued throughout the biennium. The Mason County Special Supervision Program has been successful in providing effective juvenile treatment and rehabilitation to delinquent and incorrigible youths, while providing a higher degree of protection to the community by reducing repetitive offenses. Mason County shall continue to subscribe to the Special Supervision Program as made available by the Department. The proposed program costs for the January 1, 1981 to June 30, 1981, and protections for the remainder of the biennium are enclosed.
